Introduction

The College was founded in 1993 to contribute in meeting the increasing needs for physical teaching in the fields of education, institutions and sport of all sections, and the creation of a specialized cadre to help in preparing higher education degrees (Master and PhD).

Objectives

- Qualifying teaching staff and training athletes scientifically and educationally in all institutions, i.e., to create a scientifically and physically competent working staff in clubs and sport institutions.
- Developing modern scientific methods in teaching and training, taking advantages of computer technology and techniques specialized in physical education.
- Developing capabilities of students at scientific, physical and psychological levels, as well as enhancing in them the qualities of patience and determination to achieve the best accomplishments.
- Taking advantage of the national heritage and national sport in order to build the foundations of modern national sports.
- Preparing a specialized scientific staff required in postgraduate studies.
- Enhancing the relations between the College and the community through various sport activities, celebrations and competitions held on different occasions.
- Spreading sport awareness and physical culture through publishing a scientific qualified quarterly, specialized magazine under the title (Journal of Physical Education Science), issued by the College.

Admission Plan:

The College accepted 100 students in the academic year 2009-2010 for the undergraduate studies, while there were 12 candidates for the Ph.D and 12 candidates for the M.Sc. Degrees.
