

Adolescence

=====

The adolescence transition line of the human life cycle is a period of rapid growth and development. It is a time when the child's body and mind are changing rapidly, and he is becoming more independent.

Stage of the process of being dependent on the parent and moving towards the process of becoming independent on himself and on his environment.

Child's adolescence and the role of parents during this period of life.

Called) teens (or young adulthood as he called scientists and his stage characterized by the physical, psychological, and social changes, anxiety and conflict.

This phase involves many difficulties arising for the child and the fact that his greatest need of the individual is the fact that the parent and the orientation of the child and taking.

It is like a teenager who is about to bloom and needs a lot of attention without touching or excessive.

Parents face this stage going well. The teenager and I find him to different directions and find him for it from the stage of childhood.

As he constructive concrete to his termination. Many of his thoughts of specific relationships the family for his meeting outside of him on a larger scale. His early childhood and late not. There is a clear interest to the other and by reaching test. His motives sex and expand its relations.

Meeting the parent's interest in one another and show the ability to understand and Althl's understanding of things and take a. Many have a growth with growth.

Sudden and experience limited. Now that everyone felt that his community has increasingly sensitive than they were at the time.

Many and has a heading towards compatibility with the group in the image of the participation and cooperation and exceeded all of these aspects of ethics and agree. Many have a growth with growth.

.And general behavior

Soils and the official of the crowned youth and about the ideals of science and upbringing. Upbringing is by an arduous task since the infancy of the first link of this.

Phase stages. Many Tel crowned her the best we could. Many ensure that only young people. Many raised on self-control and gain. Many have a growth with growth.

Principles and ideals of the people either Akhtonaalterb e e e and orientation, we may be
young cast out volatile P abysses of mistakes and sin

Youth in revolt against himself and his community on delinquent behavior and trends of P
Young pervert its aggression and construction of the same mistakes and naughty
